1. I asked [REDACTED] to notify [REDACTED] that he should assume the chairmanship of the Automatic Data Processing Committee during the temporary absence of [REDACTED]. In the course of our conversation [REDACTED] suggested that the Management Staff be represented on the Budget Advisory Committee as well as on the Support Procedures Committee. I do not believe that the Management Staff could make a contribution to the Budget Advisory Committee; however, it is entirely possible that they might be represented appropriately on the Support Procedures Committee and I have asked [REDACTED] to discuss this with [REDACTED].

2. The Director buzzed to say that a meeting with Messrs. Stans and Lyons had been arranged for 5:00 p.m. tomorrow to discuss our separation regulations.

3. Shef Edwards and two of his people were up to brief me on Project [REDACTED]. I was very well impressed with the coverage that they had in this Project and of its possible future use. The most difficult job confronting the Project is just now beginning and will, of course, continue until the new building is finished. However, I am satisfied that they are pretty well organized to furnish adequate coverage.

4. [REDACTED] telephoned to say that he had interviewed [REDACTED] and while he thought that he was a very nice fellow, well motivated, etc., he did not see any way that DD/P could use him.
